### Material Aspects:

Lamport Capital, L.C (LAMP):

[Mint receives payment from Lamport Capital L.C. (LAMP) for directing order flow. Payment varies based upon a number of factors including but not limited to: Size of order, time of order placement, whether an order is marketable at the time of order entry, the underlying price of the security and any special handling instructions. Since the execution fee or rebate are not based on different security types (S&P or non-S&P) or order types (Market or Marketable Limit, or Non-Marketable Limit), we calculate a flat rate for all types, per share. Then we use that per share amount to fill the right side of the 606 report, multiply it to those different filled shares, convert it to "cents per hundred shares", and display it on the 606 report.]

[Mint receives payment from CODA Markets (CODA) for directing order flow. Payment varies based upon a number of factors including but not limited to: Size of order, time of order placement, whether an order is marketable at the time of order entry, the underlying price of the security and any special handling instructions. Since the execution fee or rebate are not based on different security types (S&P or non-S&P) or order types (Market or Marketable Limit, or Non-Marketable Limit), we calculate a flat rate for all types, per share. Then we use that per share amount to fill the right side of the 606 report, multiply it to those different filled shares, convert it to "cents per hundred shares", and display it on the 606 report.]
